

(this is an HTML document with live hyperlinks :))

The Shopsmith 10E (10Experimental) and later 10ER (10Experimental Revised) was invented by Dr. Hans Goldschmidt after WW2. They were manufactured from late 1947 until the Mark V was introduced in 1954.

Everett Davis has done a lot of excellent work restoring and enhancing Shopsmith documentation. These are available on his Google Drive (to access these files, click the link below, then in the first post click on the red "My Google Drive")

https://www.shopsmith.com/ss_forum/maintenance-and-repair-f10/shopsmith-large-format-drawings-illustrations-and--t16113.html

Then open the folder "10E & 10ER MAGNA"

You can download a restored manual for the 10E and/or 10ER but be sure to also get the "Preliminary MAGNA Shopsmith Manual Restored" as well. Everett has added a large amount of material to this file covering changes that were made over the course of production, and the history of these great machines. Well worth a read.

While you are there you will also want to click on the folder "PTWFE 10ER 1953" and download the file. This is an restored and enhanced digital copy of the first edition of Power Tool Woodworking For Everyone by R. J. DeCristoforo. This book was written to illustrate how to use all the functions of the 10E/ER, later editions feature the Mark V.

Other sources for documentation are:

- VintageMachinery.org under Magna Engineering
<http://vintagemachinery.org/mfgIndex/detail.aspx?id=338&tab=3>
- Geoffrey Baker's web page
<http://www.lhdigest.com/SS/PDFsearch.cfm>

Parts and information on mods are available on Skip Campbell's MKCtools web page.

<http://www.mkctools.com/index.html>

Parts are also available from HogWinslow

https://sites.google.com/site/hogwinslowwoodworking/?fbclid=IwAR2OQOYxKWgi3jUCL45_syMbiYnq4Eh_IZRKiOm1srtWgsnNOxPG34rG3OY

There are also several communities on line that support the 10E/ER

- the Shopsmith forum – I find this one has the best search function and you can also use Google to search it, and it has the best format for long, in-depth discussions and restoration threads. Best viewed on a larger screen, desktop, laptop, or tablet. On a smart phone use the Tapatalk app.

https://www.shopsmith.com/ss_forum/index.php

Some of the 10ER specific threads that will be of interest.

- https://www.shopsmith.com/ss_forum/maintenance-and-repair-f10/everything-e-er-technical-info-documentation-links-t5074.html

- https://www.shopsmith.com/ss_forum/maintenance-and-repair-f10/restoration-progress-on-my-1952-er10-t3503.html

On Facebook – formatted for small screens, poor search function.

- Shopsmith Owners Group.

<https://www.facebook.com/groups/684461538311971/>

- Shopsmith 10E & 10ER's

<https://www.facebook.com/groups/Shopsmith10ER/>

- Shopsmith Troubleshooting and Tips

<https://www.facebook.com/groups/435332030179571/>

- Shopsmith Digital Motor Conversion

<https://www.facebook.com/groups/shopsmithdigital/>

There used to be older style email groups on Yahoo Groups for the Shopsmith 10ER and Shopsmith. Due to changes at Yahoo these groups have moved to GroupsIO. The change over was recent so all the old discussions, files, and pictures are not necessarily ported over yet.

- Shopsmith10ER@groups.io

<https://groups.io/g/shopsmith10er>

- Shopsmith Owners and Users Group

<https://groups.io/g/SSUsers2>

And there is the very old SSUG.org but it gets very little traffic any more.
