Figure 1 - This is the Shopsmith DC3300 with the New Handle RetroFit Kit attached to the 3-way inlet.

Tools Required

- Center Punch
- 5/32" Drill Bit
- Medium Phillips Screwdriver

Assembly

WARNING

Turn off and unplug your DC3300 before adding this handle.

1. Cut out template (845508), fold on dotted lines over the 3-way inlet (51476702) and tape corners of the template.

-
2. Use a center punch or nail to mark the two 5/32" diameter hole locations shown on the template.
 3. Remove template and drill holes using a 5/32" drill bit. The holes should be approximately 7/8"-1" deep.
 4. Using the Phillips screwdriver, attach the handle (1) to the 3-way inlet with the enclosed screws (2). Screwing them down through the inlet.
